

Connecticut Nursing Collaborative-Action Coalition

Building Healthier Communities in Connecticut through a Strong Diverse Nursing Workforce

Connecticut Nursing Collaborative-Action Coalition is part of the Future of Nursing: *Campaign for Action*, a nationwide movement to improve health and health care through nursing. An initiative of AARP and the Robert Wood Johnson Foundation, the *Campaign* includes Action Coalitions in 50 states and District of Columbia working to implement the Institute of Medicine's *Future of Nursing* recommendations.

Connecticut Nursing Collaborative-Action Coalition is achieving its mission by:

1. Collecting and analyzing data to ensure Connecticut has enough practicing nurses to respond to changing health care needs in the state.
2. Facilitating the revision of nursing education to reflect priorities around wellness, disease prevention, treatment, coordination of care, and collaboration.
3. Building nursing leadership capacity to respond to health care needs from bedside to community to boardroom and to inform health care policy.
4. Serving the cultural and ethnic needs of our communities by welcoming and building a broadly diverse nursing workforce.
