

## Connecticut Nursing Collaborative- Action Coalition

### Building Healthier Communities in Connecticut through a Strong, Diverse Nursing Workforce

CNC-AC is proud of its accomplishments, *but there is more work to be done.* In preparation for a second round of grants from the Robert Wood Johnson Foundation, CNC-AC must raise \$75,000 by mid-September 2014 to be eligible for a two-year \$150,000 matching grant. The next round of grants will allow us to expand upon earlier accomplishments, provide data analysis for workforce planning, implement nursing education models throughout the state, develop models to replenish the dwindling nursing faculty pipeline, develop nursing leadership capacity to influence broad health care system changes, and continue to expand upon the diversity of our nursing workforce.

**CNC-AC cannot achieve its mission  
without your financial support.**

*Please consider a financial gift to  
CNC-AC and join our  
**Give Us 5!** Campaign!*
