Help ACs:

 maximize their advocacy without violating the restrictions imposed on their funding

RWJF and Diversity

Diversity and inclusion are core values of the Robert Wood Johnson Foundation, reflected in our Guiding Principles. We value differences among individuals across multiple dimensions including, but not limited to, race, ethnicity, age, gender, sexual orientation, physical ability, religion and socioeconomic status. We believe that the more we include diverse perspectives and experiences in our work, the better able we are to help all Americans live healthier lives and get the care they need. In service to our mission, we pledge to promote these values in the work we do and to reflect on our progress regularly.

Catherine J. Malone, DBA, MBA Program Officer

Diversity Statement Call for Proposals

Consistent with RWJF values, this program embraces diversity and inclusion across multiple dimensions, such as race, ethnicity, gender, physical ability, age, sexual orientation, religion and socioeconomic status. We strongly encourage applications in support of individual candidates who will help us expand the perspectives and experiences we bring to our work. We believe that the more we include diverse perspectives and experiences in our work, the more successful we will be as we strive together to build a Culture of Health, enabling all in our diverse society to lead healthier lives, now, and for generations to come.

Evaluation

 Ongoing formative evaluation of the Campaign which includes the State Implementation Program
