

“More Evidence”

Additional References

On August 2, 2017, the Center to Champion Nursing in America hosted “More Evidence.” In the webinar, Joanne Spetz, PhD, FAAN, director of the University of California, San Francisco Health Workforce Research Center, highlighted recent journal articles. Most of the articles are included in the document “Scope of Practice: An Updated Review of the Evidence.” Additional articles are listed below.

Hemani, A., Rastegar, D.A., Hill, C., & Al-Ibrahim, M.S. (1999). A comparison of resource utilization in nurse practitioners and physicians. *Effective Clinical Practice*, Nov-Dec. Available at <http://ecp.acponline.org/novdec99/hemani.htm>

Hughes, D.R., Jiang, M., & Duszak, R. (2015). A comparison of diagnostic imaging ordering patterns between advanced practice clinicians and primary care physicians following office-based evaluation and management visits. *JAMA Internal Medicine*, 175 (1), 101-107. Available at <http://jamanetwork.com/journals/jamainternalmedicine/fullarticle/1939374>

Kurtzman, E., & Barnow, B.S. (2017). A comparison of nurse practitioners, physician assistants, and primary care physicians’ patterns of practice and quality of care in health centers. *Medical Care*

Kurtzman, E., Barnow, B.S., Johnson, J.E., Simmens, S.J., Infeld, D.L., & Mullan, F. (2017). Does the regulatory environment affect nurse practitioners’ patterns of practice or quality of care in health centers? *Health Services Research*, 52, 437-458.

McMichael, B.J. (2017). The demand for healthcare regulation: The effect of political spending on occupation licensing laws. *Southern Economic Journal*

Roblin, D.W., Liu, H., Cromwell, L.F., Robbins, M., Robinson, B.E., Auerbach, D., & Mehrotra, A. (2017). Provider type and management of common visits in primary care. *The American Journal of Managed Care*, 23 (4), 225-231.
