

6. USING TECHNOLOGY TO INTEGRATE DATA ON SOCIAL DETERMINANTS OF HEALTH INTO NURSING PRACTICE

6.3 Employ nurses with requisite expertise in informatics to improve individual and population health through large-scale integration of data on SDOH into nursing practice, as well as expertise in the use of telehealth and advanced digital technologies.

FUTURE OF NURSING™
Campaign for Action

1. Key Strategic Stakeholders

2. Top 3-5 Actions for 2021

3. Top 3-5 Actions for 2022

<p>Nursing Organizations American Association of Colleges of Nursing; American Association of Nursing Leadership; American Nurses Association; National League of Nursing; Organization for Associate Degree Nursing</p> <p>Federal Government Centers for Medicare and Medicaid Services; Federal Communication Systems (broadband); Office for the National Coordinator of Health Information Technology</p> <p>Education Academic Institutions</p> <p>Other Chief Information Officer/Chief Technology Officer; Healthcare Organization Leaders; Insurance</p>	<p>A. Redefine informatics not only as the technology but also the way we collect data such as HER Data Method</p> <p>B. Define and prioritize nursing leadership around. technology to include and incorporate the nurse leaders</p> <p>C. Balance qualitative metrics & data with quantitative data & metrics and ensure that we avoid bias</p> <p>D. Investigate and implement innovations to promote and advocate value and impact of informatics leadership</p> <p>E. Identify family caregiver data points</p> <p>F. Redefine and broaden the definition of Telehealth to include other points of contact</p> <p>G. Examine how informatics curriculum develops pipeline</p> <p>H. Leveraging funding from the American Rescue Plan</p> <p>I. GRAVITY Project – increase nursing participation</p> <p>J. Advocating for standard occupational classification codes for nursing informatics</p>	<p>A. Nurses have knowledge of codes/claims data to determine how to get paid for the care they provide</p> <p>B. Increased uptake of remote health/telehealth/patient engagement</p> <p>C. Include standards of evidence of nursing involvement with informatics for social determinants of Health for Magnet Certification</p> <p>D. Increase the United States Public Health Service.</p> <p>E. As hospitals and community organizations are completing needs analysis that they engage informaticists</p>
---	--	---

4. Success Indicators

- Benchmark surveys – how many informaticists in the nursing workforce
- Increase from baseline of nurses who identify being in informatics roles, including leadership
- Patients are able to receive the care they need – increased patient engagement/compliance with plan of care – less readmissions
- Standardized datasets
- Standardized codes that are billable and reimbursable
